Mr. C. W. Smith captured the middle

LARGE SUITS IN Tized, Nervous Mothers

Make Unhappy Homes—Their Condition Irritates
Both Husband and Children—How Thousands of Mothers Have Been Saved From Nervous

A nervous, irritable mother, often on the verge of hysteries, is unfit to care for children; it rulns a child's disposition and reacts upon herself. The trouble between children and their mothers too often is due to the fact that the mother his some female weak, ness, and she is entirely unfit to bear the strain upon her nerves that governing children involves; it is impossible for her to do anything calmly.

The ills of women actilke a firebrand upon the nerves, consequently nine-tenths of the nervous prostration, nervous despondency. "the blues," sleeplessness, and nervous irritability of women arise frem some derangement of the female organism.

Do you experience fits of depression with restlessness, alternating with extreme irritability? Are your spirits easily affected, so that one minute you laugh, and the next minute you feellike crying?

Do you feel something like a ball rising in your throat and threatening to choke you; all the senses perverted, morbidly sensitive to light and sound; pain in the ovaries, and especially between the shoulders; bearing down pains; nervous dyspepsia, and almost continually cross and snappy?

If so, your merves are in a shattered condition, and you are threatened with nervous prostration.

Proof is monumental that nothing in the world is better for nervous prostration than Lydia E. Pinkham's Vegetable Compound is the medicine that holds the record the refersten nervous despondent.

all, but simply absorbs the gases and impurities always present in the stomach and intestines and carries them out of the system.

Charcoal sweetens the breath after smoking, drinking or after eating colons and other odorous vegetables.

Charcoal effectually clears and improves the complexion, it whitens the teeth and further acts as a natural and eminently safe cathartic.

It absorbs the injurious gases which collect in the stomach and bowels; it distincts in the stomach and the most for the money is in Stuart's Charcoal Lozenses; they are composed of the finest powdered willow charcoal, and other harmless antiseptics in tablet form or rather in the form of large, pleasant tasting lozenses, the charcoal being mixed with honey.

The daily use of these lozenses will soon real in a much improved condition of the general health, better complexion, sweeter breath and pure blood, and the beauty of it is, that no possible harm can result from their continued use, but on the contrary, great benefit.

A Biffalo physician in speaking of the benefits of charcoal, says: "I advise Stuart's Charcoal Lozenses to all patients suffering from gas in stomach and bowels, and to clear the complexion and purify the breath, mouth and throat; I also believe the liver is greatly benefited by the daily use of them; they cost but twen, ly-dive cents a box at drug stores, and although in some sense a patient preparation, yet I believe I get more and better charcoal in Stuart's Charcoal Lozenses than in any of the ordinary charcoal tablets.

"I have been taking Duffy's Pure Malt Whiskey for five years. I take about half a wine-glassful twice and sometimes three times a day. It has brought me from an old, decrepit, worn-out man, given up to die by friends and relatives, to perfect health. I had said good-by to all my friends, and was so thin that you could count my tech through my skin. I only weighed 140 pounds, seventy less than usual. One day a drugsist, an old friend of mine brought me a bottle of Duffy's. I began to take the medicine regularly, and my recovery was marvelous. I began to sleep soundly and to retain nourishment. In two weeks I could walk about the room, and in a month I could go down town. My hair has all come back, just as it used to be, and I weigh 210 pounds, my former weight. railings to prevent passengers being washed overboard, served their purpose only in part. So great was the volume and force of the rushing waters that a door in the rall was smashed, and through this opening five of the helpless ones who had been caught by the wave were swept to their death. Others, dashed against the rails and other like obstructions, escaped death, but many of them received severe injuries. One young woman had both legs broken at the thigh, and several perfons suffered broken arms and ribs, while more than a score were bruised and battered. When the wave cleared the vessel the forward part of the deek was strewn with injured, and for cleared the vessel the forward part of the deck was strewn with injured, and for hours Dr. Verten, the ship's surgeon aided by a number of physicians among the cubin passengers, was busy in attending to their hurts. In the meantime an inspection of the steerage was made by the ship's officers, and it was learned that five of the passengers were missing.

Children Work Saved.

Children Were Saved. From one of the steerage passengers it was learned that the lives of several children were saved by a stewardess, Miss Cotes, and a dock hand. The little ones were playing about the deck when they were caught in the swirl of water and carried aft with the others.

rushed to their rescue and dragged them back to safety.
Wednesday's disaster marks the first time in the Cunard Line's history of more than sixty years that a passenger has been lost from one of the steamers by accident. Although some of the passengers thought that the Campania should have been stopped in an attempt to save those who were washed overhoard, the officers say that this was practically an impossibility. Both passengers and officers say that the waves in Wednesday afternoon's gale were the highest they have ever seen. At times they broke as high as the top of the smoke-stocks. An hour before the accident a second officer on the bridge was struck by the descending creat of a wave, knocked down and refidered un-conscious. He was taken to the hospi-tal. Many steerage passenegrs upp-landing at the dock to-day fell upp-their knees and offered prayers of thanksgiving for their safe arrival.
